

The goals of Measures H & I are to fund Inglewood public safety and other city services.

Because COVID has strained Inglewood resources, the City projects an operating budget deficit over the next 5 years and needs to identify revenue sources to fund critical city services, like public safety and emergency response.

Measure H

*Inglewood Community Services
Protection Measure*

Update hotel occupancy tax in Inglewood

Measure H raises the hotel visitor tax by 1.5%, in line with neighboring cities like Los Angeles and Anaheim. Measure H is projected to generate an additional \$730,000 annually towards essential city services. Measure H will continue to generate additional revenue as new hotels open in Inglewood.

Measure I

*Inglewood Public Safety/
Essential Services Measure*

Change real estate transfer tax for transactions over \$1.1M

Measure I increases the transfer tax on real estate transactions valued over \$1.1 million at a tiered rate. Real estate transactions under \$1.1 million would not be affected by Measure I. Measure I would apply to the top 2% of real estate transactions in Inglewood and would generate an estimated \$3.5 million annually towards city services. Measure I does not increase property taxes.
